

Comprehensive Sections

- 1** Overall planning and scientific arrangements to promote water conservation realizes the leap frog development
— *An interview with Zhou Xuewen, Total planner and Director-General of Department of Planning and Programming of MWR*
- 4** Deeply promote the rule construction of water conservation and comprehensively improve the level of administration according to law
— *An interview with Zhao Wei, Director-General of Department of Policy, Law and Regulation of MWR*
- 6** Establish the "three red lines" of water resources management to implement the strictest water management system
— *An interview with Sun Xuetao, Director-General of Department of Water Resources Management of MWR*
- 8** Innovates unceasingly the financial system mechanism by regarding the water conservation main task
— *An interview with Zhang Hongbing, Director-General of Department of Finance and Economics of MWR*
- 10** Provides the strong organization and the talented person for the water conservation main task guaranteed
— *An interview with Liu Yaming, Director-General of Department of Personnel, Labor and Education of MWR*
- 12** Increase scientific and technological innovation and promote international cooperation to provide strong support for the water conservation development
— *An interview with Gao Bo, Director-General of Department of International Cooperation, Science and Technology of MWR*
- 15** Pays special attention to three important matters and deepens two items reform to advances the water conservancy construction and management work
— *An interview with Sun Jichang, Director-General of Department of Construction and Management of MWR*
- 18** Speeds up the advancement conservation of water and soil to provide the safeguard for sustainable development of the economic and society
— *An interview with Liu Zhen, Director-General of Department of Water and Soil Conservation of MWR*
- 20** Take measures to promote a strong infrastructure to accelerate the pace of rural water conservation infrastructural facilities construction
— *An interview with Li Yuanhua, Inspector of Department of Irrigation, Drainage and Rural Water Supply of MWR*
- 23** Strengthen measures and implement the plan to create a new situation of water conservation safety surveillance

- work
— *An interview with Wang Aiguo, Director-General of Department of Security Supervision of MWR*
- 25** Comprehensively improve the capacity of flood and drought prevention to provide a strong guarantee for the modernization
— *An interview with Zhang Zhitong, Vice Director-General, Office of State Flood Control and Drought Relief Headquarters*
- 28** Promotes the institution party construction to provide the thought and politics guarantee diligently for new development of water conservation for the livelihood of people
— *An interview with Liu Xuezhao, Vice Director-General Party Committee of Institutions directly under MWR*
- 30** Plays an active role in supervision and inspection to provide strong protection for the development of water conservation
— *An interview with Wang Xing, Director-General, Bureau of Discipline Inspection Designated by the Ministry of Discipline Inspection to MWR*
- 32** Promote the harmonious development of rural hydropower to improve people's livelihood
— *An interview with Tian Zhongxing, Director-General, Bureau of Rural Hydropower Development & Electrification*
- 34** Full-service support to strengthen hydrological for water science development
— *An interview with Deng Jian, Director-General, Bureau of hydrology*
- 36** The full implementation of water resettlement support policies to promote the work of poverty relief
— *An interview with Cheng Dianlong, Director-General, Bureau of Reservoir Immigration Development*
- 38** Focused result-oriented around the central work of promoting the scientific development of South-to-North Water Diversion Project
— *An interview with Tang Chuanli, Director-General, Bureau of South and North Water Transfer of Planning, Designing and Management of MWR*

River Basin Sections

- 40** The river wells up new tide and scores the brilliant work again **Cai Qihua**
- 43** Stride forward on the road of maintaining the healthy life of the Yellow River **Li Guoying**
- 46** Adhere to the path of scientific development and

- brilliant achievements is got in the Huaihe River during the period of "Eleventh Five-Year" **Qian Min**
- 48** Further promote the Haihe River Basin water resources security system and lay a solid foundation for "Twelfth Five-Year" **Ren Xianshao**
- 50** Accelerate the pace of water development and do best efforts to promote construction of Green Pearl **Yue Zhongming**
- 52** Keep pragmatic and integrated river basin management capacity to forge ahead to achieve steady increase **Dang Lianwen**
- 54** Strengthen integrated river basin management and governance for economic and social sustainable development of water safety **Ye Jianchun**

Local Sections

- 56** Provides the solid water supplies safeguard for the capital construction **Cheng Jing**
- 57** Make every effort to water resources, water environment and water safety, which is very important **Zhu Fangqing**
- 58** Transfer development way and advance the Hebei water conservation to realize good quick development **Li Qinglin**
- 59** Implement the water conservation strategy to safeguard the Shanxi leap development in transition period **Pan Junfeng**
- 60** Strengthen water conservancy infrastructure construction for livelihood security and promoting development of economy **Ge Feng**
- 61** Flood control achieves a comprehensive victory and the people's livelihood is pushed forward solidly **Shi Huiyun**
- 62** Deals with the water flood and drought scientifically and develop water conservation vigorously for the livelihood of the people **Su Zheng**
- 63** Fights the water conservancy facility fortification fight with all our strength **Lu Bing**
- 64** Provide the powerful water supplies service and the safeguard for the World Expo's successful hold **Zhang Jiayi**
- 65** Around "Two Priorities" to realize the modern conservancy development new jump **Lv Zhenlin**
- 66** Consolidate the basis and control flood scientifically to promote the water conservancy construction comprehensively in Zhejiang **Chen Chuan**
- 67** Speed up the water conservation technological

- progress for accelerated development of Anhui **Ji Bing**
- 68** The water conservation construction realizes the popular hope for livelihood of the people **Yang Zhiying**
- 69** Overcome difficulties and consolidate the basis for development **Sun Xiaoshan**
- 70** Sticking to integrated water management to promote scientific development **Du Changwen**
- 71** Construct the cornerstone of water conservation for building the central plains **Wang Shiyao**
- 72** Make the new duty clear to innovate magnificently again **Wang Zhongfa**
- 73** New opportunity, new duty and new spanning **Dai Junyong**
- 74** Strengthen the disaster prevention and ensure people's livelihood powerful **Huang Baiqing**
- 75** Start the water conservancy facility to new high tide to promote the water conservancy development with new spanning **Zhong Xiangting**
- 76** Develop the Hainan water supplies vigorously regarding the international traveling island construction **Li Hongbo**
- 77** The foot hold livelihood of the people with scientific progress will promote Chongqing's water conservation to be better with a quicker development **Zhu Xiansheng**
- 78** Around core objective to create a new situation in water conservancy **Leng Gang**
- 79** Carries on the task and promote water conservation in new spanning **Li Ping**
- 80** Speed up the infrastructural facilities construction and deal with the water conservation bottleneck restriction diligently **Zhou Yunlong**
- 81** The people's livelihood of water conservation adds new color Tibet to develop again in steps the stride **Baimawangdui**
- 82** Brings honor to the Yizhi spirit to raise the water conservancy facility to new high tide again vigorously **Wang Feng**
- 83** Accumulating the heart to attack the difficulty to impel the water conservation to develop good and fast **Kang Guoxi**
- 84** The water conservation becomes the support of Qinghai in "four development" **Yu Congle**
- 85** The strong foundation presses the development to grace borderland and livelihood of the people **Wu Hongxiang**
- 86** Make the foundation solidly for the autonomous leap development and the long-term peace and good government **Wang Shijiang**
